

Find the Alien Game

Instructions

You will need:

- Alien Cards

Instructions

Lay all the alien cards out on the carpet or table, face up so the pictures can be seen. Choose 1 player to start the game - they need to look at the alien pictures and choose one to describe to the rest of the group. They shouldn't move or touch the pictures but keep their chosen alien secret from the group. Then they describe their chosen alien and the rest of the group have to identify it from the set. The first player to pick up the correct alien card, keeps that card and play passes to the next player. Play ends when all the cards have been described and identified. The winner is the person with the most cards.

The game can be made harder by giving more general clues (e.g. my alien has 1 eye) or easier by giving more specific clues (e.g. my alien has wings).
